RE: Case No. 09-1758-E-CN

Via: U.S. Mail and Facsimile

Dear Ms. Squire,

Please find enclosed this original and 12 copies of this statement by complainants titled: "Clarification on Prickett Cr. and North R. filings", a copy of which has been provided to defendant's counsel. This is a filing in case 09-1758-E-CN to clarify that the 2010-04-30 and 2010-05-05 filings by the complainants in this case are materials supporting their original case. Complainants want to make it clear to the PSC that the previous two filings on 2010-04-30 ("Additional evidence of non-compliance in clearing for TrAIL: Prickett Creek" and on 2010-05-05 ("North River Crossings: Clear-Cut TrAIL Right-of-Way"), and all filings made so far in this case are in support of their original case that Allegheny Energy (TrAILCo) has not followed all PSC orders for clearing the TrAIL right-of-way. Allegheny Energy's subsidiary TrAILCo has ignored certain PSC orders, the CAD stipulations incorporated into those orders related to selective clearing, and the description of the project as proposed in its application to the PSC, in particular as it pertains to clearing across streams and valleys, the use of Class I clearing in West Virginia and the protection of waterways within the state. Complainants continue to ask for the relief stated in their original complaint and as restated in subsequent filings.

Thank you,

John Coleman
